George Rennison, December 2010

**Logan-Rogersville Fire Protection District**  
**Operations Branch**  
*Deputy Chief Trent*

The Operations Branch is broken down into (2) two divisions, Operations and Hazardous Material/Medical. The Operations Division is overseen by Assistant Chief Russ Lafferty and assisted by Battalion Chief Jared Melton. These gentlemen are responsible for the operations and supervision of fire stations, apparatus, firefighting personnel and fire ground operations at incidents. The Hazardous Material/Medical Division is overseen by Assistant Chief Dennis Clinton. Asst. Chief Clinton is responsible for the medical and hazardous material policies and protocols, operation and readiness of the hazardous material response personnel, medical and hazardous material equipment and personnel training.

In 2010 the Operations division responded to 1254 calls for service. This is a 5.1% decrease over the previous year. The decrease can be contributed to several different areas but mainly due to less wildland/grass fire and emergency medical assist calls from the previous year.

Efficient operations and firefighter safety are always the main objectives for the District. Fire operations and firefighter safety were strengthened over the past year with the addition of automatic aid agreements between the City of Springfield Fire Department and the District. Existing automatic aid agreements with Ozark, Battlefield, Strafford and Sparta were revised with the same intent to bolster fire operations and firefighter safety. These agreements provide these departments to be dispatched on the original call thus allowing for quicker response times to provide the additional manpower needed in the operations and for firefighter safety.

The Hazardous Material Division and EMS Division were very busy this year trying to improve the operations of the divisions. The Haz-Mat team joined forces early this year with the City of Springfield Fire Department Hazardous Material team. With this merger it more than doubles the head count of the hazmat team and increases the technician operations for the departments. The EMS Division received grant funds to purchase new cardiac monitors with integrated automatic external defibrillators. These units also have the ability to detect carbon monoxide (CO) levels in patients and firefighter, this type of poisoning is one of the leading killers of firefighters today. Additionally, the EMS Division has revised the policies and procedures to allow EMT – Intermediates to practice a selection of advanced life support (ALS) procedures.

In conclusion it has been a very exciting and busy year for everyone with the anticipation of continued growth in the district. We look forward in the upcoming year to serving our residents and those traveling through or visiting.

**Logan-Rogersville Fire Protection District**  
**Technical Service Branch**  
*Assistant Chief Dennis Clinton*  
*Battalion Chief Robert Talburt*

The Technical Service Branch consists of four (4) Divisions:

**Public Education/Relations**  
**Training**  
**Fire Investigations**  
**Fire Prevention**

The Technical Services Division continued to focus on an all hazards approach to fire & injury prevention in 2010. Our ***Community Risk Reduction*** efforts were improved with the addition of the *Remembering When* curriculum for the older adult demographic residing within our district. We continue to partner with St. John's Injury Prevention Center and have joined forces with St. John's Home Health to get this program implemented. *Remembering When* is a fire and fall prevention program that focuses on sixteen (16) behavior modifications to try and reduce or eliminate fire related injuries and fall related injuries. We were able to implement this new program through a scholarship/grant through the NFPA. Our Child Passenger Safety program continues to see a steady growth with increased need in our community. We added an additional four technicians in 2010 to help meet the needs of our community in the area of Child Passenger Safety. In December 2010 we received word that we will be receiving another grant from the Missouri Department of Transportation to help sustain our program.

We continue to receive smoke alarms and Carbon Monoxide detectors from both Home Depot and CHC. Through these community partnerships we have been able to continue our installation programs. In addition we received another large shipment of 9 volt batteries from the Energizer Company to be used in our installation programs. In August we held the 1<sup>st</sup> Annual Pancakes and Pencils event. This event was created to help raise support for the Wildcat Closet and to meet the need of school supplies for children in our district. Personnel did a fantastic job in preparing the pancakes. The event was well attended by the community and we were able to collect a large donation of school supplies and money for the purchase of additional school supplies. We plan to continue with this event in 2011.

In September we joined forces with the community in welcoming the National Fireworks Association's annual expo. We conducted several inspections of the fireworks displays and issued permits for the festivities.

The weather did not cooperate for a portion of the event, but otherwise everything went as planned. A successful Firefighter I & II class was held in 2010 with a 96 % pass rate. In conclusion it was a very busy year for the Technical Services Division with many exciting things taking place. We will continue to push forward in 2011 with our focus on Community Risk Reduction.

1. We installed seventy-four (74) smoke alarms in sixty-eight (68) single-family dwellings. We also installed seventy-one batteries in sixty-five (65) single-family dwellings.
2. Carbon Monoxide Detectors (CO). This program continues to be successful through a community partnership with both Home Depot and CHC. We installed eleven (11) CO Detectors in eleven (11) single-family dwellings.
3. We continue to offer the Residential Safety Survey (RSS) program four our constituents. We conducted forty-four Residential Safety Surveys. In 2011 we hope to conduct these surveys during every smoke alarm installation.
4. Engine Crews continue to conduct blood pressure screenings at the Rogersville Senior Center bi-monthly. Engine Crews see on average twenty-two older adults on these scheduled days.
5. The Child Passenger Safety program has flourished over the past year. We have seen an increase in installation requests and check only requests. In 2010 we installed twenty-six (26) child safety seats and checked sixteen (16) already installed car safety seats. We also added an additional four (4) Child Passenger Safety Technicians to our staff.
6. The Mobile Fire Safety Learning Center (MFSLC) was placed in service at eleven (11) events. This year over 1, 350 children were educated through realistic educational sessions. We are working with Home Depot to complete some renovations and updates to the MFSLC in 2011.
7. We provided four (4) EMS standbys at requested events.
8. We provided nine (9) fire standbys at requested events.
9. We continue to work very closely with the school district in reaching the school aged children that reside in our district. In 2010 we visited over 1, 200 students in the schools with important fire safety messages and injury prevention information.
10. We continue to assist the school district in parking vehicles at all home football games and graduation. This year we saw another successful football season which led to increased attendance at home football games.
11. District Headquarters was toured twenty (20) times this year.

12. We held the 1<sup>st</sup> Annual Pancakes & Pencils event in August as a school supply drive for the Wildcat Closet. Several hundred people came out to support the event and the community.
13. The fire district hosted several birthday parties and monthly service group meetings in the training/community room.
14. Community CPR education was provided to three (3) places of business and one (1) civic group. The total number of students educated was thirty-four (34).

**Training:**

In 2010, Logan-Rogersville personnel received 2,287 hours of training. Logan-Rogersville personnel received the following certifications: The total number of current certifications is also shown below.

| <b>State Certification</b>     | <b>2010 Department Total*</b> |    |
|--------------------------------|-------------------------------|----|
| Medical First Responder        | 02                            | 25 |
| EMT-Basic                      | 03                            | 12 |
| EMT-Paramedic                  | 00                            | 05 |
| Firefighter I                  | 02                            | 02 |
| Firefighter II                 | 07                            | 37 |
| Fire Officer I                 | 03                            | 06 |
| Fire Officer II                | 00                            | 04 |
| Fire Service Instructor I      | 04                            | 09 |
| Fire Service Instructor II     | 00                            | 02 |
| Fire Service Instructor III    | 00                            | 01 |
| Fire Service Instructor IV     | 00                            | 01 |
| Fire Investigator              | 01                            | 02 |
| Fire Inspector                 | 01                            | 03 |
| Hazardous Materials-Awareness  | 03                            | 06 |
| Hazardous Materials-Operations | 07                            | 11 |
| Hazardous Materials-Technician | 07                            | 26 |
| Associate Degrees              | 01                            | 04 |
| Bachelor Degrees               | 01                            | 05 |
| Master Degrees                 | 00                            | 01 |

\*Totals only reflect the highest level of certification in each area and do not include personnel receiving certification in 2010 that are no longer with the fire district.

## **Fire Prevention:**

**This year the Fire Prevention Division conducted the following activities:**

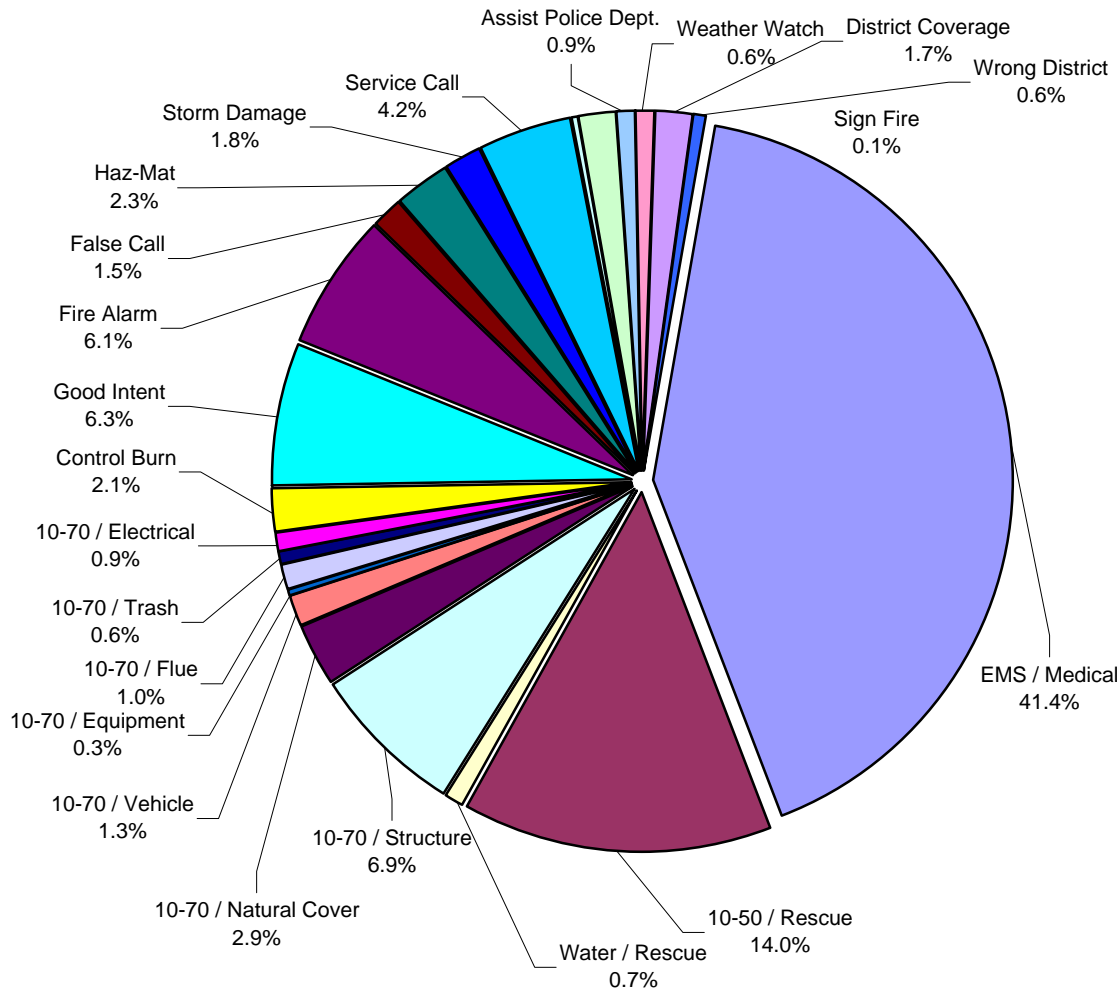

- Completed two-hundred and twenty-eight (228) annual inspections in commercial buildings.
- Our re-inspection percentage continues to drop with owners and tenants recognizing the need to maintain their properties at a higher level.
- A total of four (4) sets of building plans were reviewed for new construction throughout the district. This included plans that were sent back for a second review after changes.
- Our Knox Box program continues to grow. We have seen a steady increase in Know Key switches being ordered. This is mainly from a partnership with local gate contractors.
- Through a grant from the Missouri Department of Conservation and Missouri RC & D we were able to attend a Firewise Training conference in California. This additional training will help as we educate the community on wildfire prevention.
